

Sheds and garden storage

We understand the importance of providing quality storage solutions for house developers. Our range of wooden sheds, wooden bin stores, and wooden bike storage options are designed not only to enhance the aesthetic appeal of any garden but also to offer practical functionality. Crafted from durable timber, our wooden sheds are perfect for storing tools and gardening equipment, ensuring that developers can offer prospective homeowners a tidy and organized outdoor space. We offer an installation service, and ensure that all installations are handled the utmost professionalism.

In addition to our wooden products, we also provide metal and plastic storage solutions. Our selection includes robust metal sheds and versatile plastic storage units that can withstand the elements while providing ample storage. These materials are perfect for developers looking to integrate modern and low-maintenance options into their property.
